CUSTOM CAPABILITIES

Perfection Chain can easily customize chain for your order and provide labor savings. Whether you need specific length product, custom kits with multiple components or engineered assemblies, we've got you covered!

SPECIFIC LENGTH PRODUCT

Perfection Chain can provide custom length product through machine or manual cutting. If your company requires a custom length product to hang lights, signage or any other application, please contact us with your requirements.

KIT CAPABILITIES

Perfection chain can provide multiple component kits—either in bags or boxes—per your requirement. For those who desire a package of chain and hardware for inclusion with their end product, please send us the information and allow us to give you a quote.

ENGINEERED ASSEMBLIES

Perfection Chain has an entire department dedicated to producing chain related custom assemblies.
